

## WIRELESS CHARGING BY CYGNETT

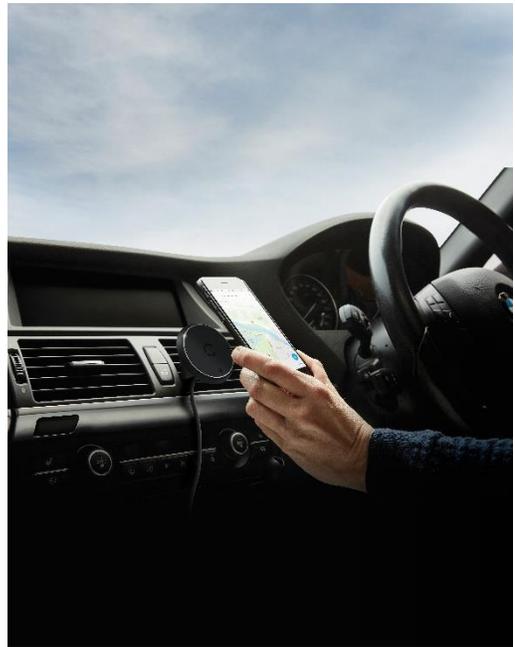

Introducing Cygnett's range of premium wireless charging devices for the home, vehicle, and travelling on-the-go.

### Cygnett MagMount Qi Wireless Car Charger

- Latest Qi 7.5W wireless charging technology
- 360° rotation and extensive pivot motion
- Magnetic connection mechanism for strong hold

Stay connected with Cygnett's MagMount Qi Wireless Car Charger and simultaneously charge and mount your device whenever you're on-the-go.

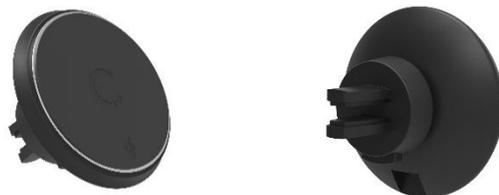

Utilising the latest certified Qi 7.5W wireless charging technology, you can now charge your device without the need for cables, enabling fast and convenient charging, and the magnetic mounting system will fit securely to your car vent using a spring-loaded hold clip. The effortless on/off attachment is perfect for those times you need to switch between vehicles whilst the strong magnetic hold will keep your device safe, sound and secure even on the bumpiest roads.

With its 360° rotation and extensive pivot motion, the Cygnett MagMount Qi Wireless Car Charger offers perfect driver viewing with the option of both vertical or horizontal positions for optimal ease of use and convenience.

The ultra-compact charger is compatible with most current Qi Wireless enabled smartphones of varying sizes, including the new Apple iPhone 8 Plus, iPhone X and most Samsung devices. Whether or not you keep your device in a protective case, the MagMount ensures an incredibly strong hold.

Available now from [www.cygnett.com](http://www.cygnett.com), Apple Premium Resellers and leading electronics stores for SGD\$89.00 RRP.

## Cygnett PowerBase Wireless Desk Charger

- Compact, convenient and fast charging solution
- Features the latest fast charging, wireless technology
- Anti-slip surface to ensure your device stays in place
- Built in LED light to confirm device alignment

Prepare to set yourself free from messy cables and adaptors with the introduction of Cygnett's PowerBase Wireless Desk Charger – a safe and convenient way to charge your phone.

The Cygnett PowerBase Wireless Desk Charger allows you to wirelessly charge your device without compromising its functionality, in the office, home or away on your next travel adventure. Simply pick up your phone straight from the charging pad and use as normal, then once you're finished, set back down again for instant charging.

The LED light indicator will alert you if your device is incorrectly aligned on the charging pad, maximising your charging time and efficiency. If the Charger is running low, it'll let you know so you'll never have to be without charging capability.

The PowerBase Desk Charger is compact, sleek and also features an anti-slip surface for convenience.

Designed for the latest smartphones including iPhone X, iPhone 8 Plus and android devices, Cygnett's PowerBase Desk Charger is compatible with all flat-based cases measuring under 3mm in thickness, enabling the most convenient charging experience.

Available now from [www.cygnett.com](http://www.cygnett.com), Apple Premium Resellers and leading electronics stores for SGD\$69.00 RRP.
